

## RETROSPECT - PROSPECT

# Symphony IV – Great Puzzle

### Archeology of the Future

Dear users of the Internet, dear friends of the Arts

To make your understanding of my Internet presentation easier I copied the first pages of my Art Book „Legion III Italica“.

„A Game“ is another part of a complex approach to the topic „EUROPE“

Having read the preface you might realize that the first chapter only consists of dates. Within the very book I kind of correlated an event to the date, starting in 2008 up to the year 0009, and searching the Internet was very helpful to it.

With „A Game“ I would like to invite you, dear freinds of the Arts, to name your visions that could be matched to the next 100 years to come.

Via E-mail, letter or a phone call you can tell me about your visions and I am going to complete the table by making some choices if necessary.

If all goes well I will publish all the information on 28 July 2014, preserving your anonymity goes without saying.

Kindest regards.

Klaus Kux

YEAR	VISIONS
2010	
2011	To go through a happy moment every day
2012	Troops retreating from Afghanistan
2013	Abolition of the EURO
2014	New currency
2015	Reintroduction of the EURO
2016	Gas prizes 5,29 €
2017	North Sea oil spill
2018	Brunsbuettel Nuclear Power Station explodes
2019	„New world“
2020	China takes US over
2021	New Flunami

2022	The Islam becomes Religion of the World
2023	Reunification of North and South Korea
2024	Demolition of the Waldschloesschen Bridge
2025	„Desertification“ of Saxon villages
2026	Jelly bears are main nutrition
2027	Introduction of the American Yen
2028	<p><b>Vision – Symphony IV – Great Puzzle</b></p> <p><b>Year 2028</b></p> <p><i>„Freedom will be wearing off if you don´t use it.“</i> (Reinhard Mey)</p> <p>„Youth is trashing all the last values“ this is what Germany´s biggest News Alert is headlining today.</p> <p>Jannick Ethan has just subscribed to „buns ´n´ news“ and is stabbing through the snow while some virtual ink cartridge is reading the news to him from his mobile device. The big headphones are serving as earmuffs as well today- it is Tuesday 29 February and the display is showing binary temperatures below zero. He´s got to be at the Audimax at 9 a m . A methodist bishop from Flint/Michigan is ministering on occasion of the 7<sup>th</sup> anniversary of the youngest victim and as well offender of a school shooting. In case of nonattendance he might be exmatriculated says the presidency .They justify this decision by saying this „solidarity / social commitment“ course“ would not have been taken. This course is compulsory for all studies and to make the church service beneficial study regulations were adopted to the latest requirements, they say. Subsequently some 200 students had a sit-in in front of the presidency. Due to a malfunction when analysing the live video material which is attached to „safety cams“ scanning your face the SEK was told to storm the building. Jannick Ethan has been clicking all the articles three times by now but he would not find anything about about any injured students who had been beaten through the snow. All that is left at the end of the day are Wehrmacht-like uniforms worn by the students and a Hitler nameplate at the president´s door. A decline in values of our society. Jan, as he is called, reaches the security checkpoint, where he is identified and his rucksck is being scanned. This has been going on the whole semester – being x-rayed at every entrance to a building.It bothered him at the beginning, but where is this significant difference to the rest of his day?. He has been being controlled since the introduction of this HRC, the human rights card. The HRC is kind of an updated medium that shall simplify daily life, social equality, security and health of the German population. At least this is what the government said when introducing the device. It contains a calendar alerting all routine visits to doctors, making all appointments for you online, contains all electronic fingerprints, measurements of the body giving advice for your nutrition and last but not least a toll card. The last was fervently discussed, but agreed to in the end because of security reasons.It is not all-encompassing yet, however, in bigger cities the system is being seen as matured. So-called terminals gather individual HRC data in order to solve crime effectively and fast. Due to personal rights they cannot analyse live data.</p> <p>Jan´s best friend turns 25 in two days. They are off round noon. Being off... They used to have a beer in the dining hall. But now drinking is forbidden in public buildings and no drinks are sold before 5 p m. The number of alcoholics has reached its pike. Some of Jan acquaintances have handed in their passports and HRC cards. There´s little movement</p>

	of that kind. Some leave for good searching the lost paradise, others live illegally but being put up with in remote woods. Left are those who are catching every wave and those who are fighting back. The biggest triumph of the state is fear. And people are fearful. Most of all because they have been told to be fearful.
2029	Johannes Hesters tours the world
2030	Return to human values
2031	World Peace
2032	Blue equals red
2033	Cancer is defeated
2034	No petrol engines anymore
